Events

The Women & Gender Constituency (WGC) is one of the nine stakeholder groups of the United Nations Framework Convention on Climate Change (UNFCCC). Established in 2009, the WGC now consists of 34 women’s and environmental civil society organizations, who are working to ensure that women’s voices and their rights are embedded in all processes and results of the UNFCCC framework, for a sustainable and just future, so that gender equality and women’s human rights are central to the ongoing discussions. As the WGC represents the voices of hundreds and thousands of people across the globe, members of the Constituency are present at each UNFCCC meeting and intersessional to work alongside the UNFCCC Secretariat, governments, civil society observers and other stakeholders to ensure that women’s rights and gender justice are core elements of the UN Framework Convention on Climate Change.

This year our network is following the Commission on the Status of Women closely due to it’s priority theme of “Achieving gender equality and the empowerment of all women and girls in the context of climate change, environmental and disaster risk reduction policies and programmes;”
